

## ***Our Mission Statement***

Seal and Cylinder Source, Inc. is a family owned and operated business with over 25 years of automotive and industrial experience that strives to bring exceptional service to our customers. SCS, Incorporated makes every effort to be honest, friendly and cost effective every day. Our success comes from our skilled employees and our commitment to using the latest technologies available in our industry. Our work is measured by the cost saving we provide to all our customers.

Large and small we treat all our customers with the same respect and appreciation they deserve.

Seal and Cylinder Source, Inc. “***More Than Cylinders...Solutions***” is committed to continually exceed our customers’ expectations. No matter the scope of the project, or how challenging, we strive for perfection so we can achieve excellence. We strive not only to provide exceptional cylinder repairs and fluid power components, but provide cutting edge sealing technologies to find solutions to customer needs. We plan to meet our goals through. Our business model is based upon one simple idea. The more services you can provide in-house allows you to avoid the confusion that comes from outsourcing. Controlling every aspect of your part or service lets us produce a quality product, with the fastest turn around, while maintaining a competitive price.

Strict quality standards at Seal and Cylinder Source, Inc. assure our customers that they are receiving world class products. Competitive pricing achieved through a commitment to investing in new technologies and to develop cost effective solutions in the manufacturing process. Hiring the best talent available in the industry and providing a work environment that promotes growth and innovation. Uncompromised service to our customers and helping to find long term cost effective solutions to insure success in a competitive market.
